About This Content

Toposim US Northeast for FSX: Steam Edition provides LOD 12 / 10m Multi-LOD terrain mesh for the whole of the Northeast of the United States, improving the accuracy of the default terrain mesh and offering a marked improvement to the landscape profile.

VFR flying over Northeast United States has never been more realistic with lakes, mountains and ground undulations all where they should be.

Please note this pack corrects the default terrain mesh and does not include any textures.

This pack includes terrain mesh for the following US States:

- Delaware
- Maryland
- New Jersey
- New York
- Pennsylvania

-
- Virginia
 - West Virginia
 - Connecticut
 - Maine
 - Massachusetts
 - New Hampshire
 - Rhode Island
 - Vermont

Glad I didn't spend much on this. It made my home airport KCRW go from worse to ridiculous, now sitting upon cliffs. And by the way, runway 33 has been closed for many years. Additionally, in the middle of nowhere (Central Appalachia), there are often 4 roads (not highways) simultaneously weaving the same paths. What an eyesore!

Removed.. very realistic, highly recommend. This program has ceased to fly as designed. It does not respond to any changes in controls and is impossible to fly. Could you reinstall this program so I can still enjoy my flying hobby?
